## DATABUILD SMARTER BUILDING SOLUTIONS Change the way you do business

Since its creation in 1975, Databuild has been proactively and continually developing software specifically for the building and construction industry making it intuitive to the building process.

Whatever the size of your business, Databuild enables you to store all your business information in one integrated system, ensuring everyone is working on the same page

Databuild will streamline your processes and allow you to leverage the data in the system to automatically produce reliable information and reports that would normally take hours or days to produce manually.

Think faster estimating, instant email of purchase orders, think live profit margin on jobs and payroll integration.

...Think Consistency and **Control of Your Business** with Databuild...

#### Accurate Estimating

Choose items from pre-existing or business specific recipes to provide customers with quick, accurate estimates, alterations and specifications.

All estimate data is inter-linked, accurate and easy to keep up to date. Estimates can become quotations, quotes can become Bills of Quantities, which, in turn, can become Purchase Orders.

#### **Quick Quotations**

Databuild's quotation function lets you create, modify, call up, save and print quotations onto your business letterhead quickly and easily.

In addition, an integrated Sales Analysis tool helps you to keep track of your quotes and measure conversions.

> **Contact us today** for a FREE demonstration

#### **Easy Purchase Orders**

Databuild lets you quickly create, email and print individual or multiple purchase orders directly from the system to ensure fast and efficient transactions. Preferred suppliers can be easily distinguished according to price, delivery time, locality or outstanding orders.

#### **Painless Variations** Management

Variations can be easily managed to provide you with complete transparency. They are simply approved, ordered, tracked and claimed separately to your main estimate.

### **G** Databuild is a useful and valuable tool that complements our attention to detail and provides us with a sense of confidence.

#### Automatic Invoice Checking

Our invoice checking functionality automatically notifies you of duplicated invoices and invoices that exceed budget and order amount; ensuring you never overpay creditors again.

**Powerful Accounting** 

Databuild's all-encompassing accounting

system gives you the control to manage

your invoices, make payments by EFT

transfer, email or print remittance advice

updates the General Ledger saving you

valuable time.

notes and raise cheques effortlessly.

#### Fully integrated reporting allows you to generate reports such as Trial Balances, P&L Statements. Balance Sheets. account enquiries, bank reports and GST Business Activity Statements at a touch of a button.

### **Job Cost Reporting**

Job Cost Reports allow you to identify the most and least profitable areas of your business quickly and easily. Automatic report generation saves time and shows every cost incurred, compares expenses to estimates and alerts you to excessive costs to minimise overruns.

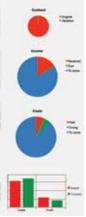

# 1 COL 400 - 14 11.000.00

Multiple annual accounting periods, up to 10 nesting levels and 80,000 charts of accounts, enable you to set the system up to suit your needs. In addition, the Central Posting System automatically

**66** I was first introduced to Databuild in 1992 working for a small builder. 22 years later working for a volume builder, I am using the same package.

Renmark Homes – Databuild user for 15 years

#### **Pavroll** (Australia Only)

By seamlessly integrating your payroll into your construction software, you can be sure employee costs relevant to construction and your business as a whole, are part of your Job Cost Reporting.

#### **Price File Management**

With Databuild's price file management functions you can easily import, export and store supplier and quoting rates Prices can easily be customised, altered, and categorised. Time consuming errors can be reduced by updating thousands of items in one go and printing your suppliers' reference back to them.

#### **Customer Support** & Training

With phone, email and web based support services, our help desk team are on hand to make sure you get the most out of the software.

Also available are on-site or remote post sales training sessions and classroom style training courses where you can better enhance your knowledge of the basics, or explore further into in to the program functionality.
